

## 130 Elektrolyseanlage zur Erzeugung von Wasserstoff

Pos. Bezeichnung

- 1 **1 Elektrolyseanlage**, Elektrolyse-Wasserstofferzeugungsanlage, Hersteller Carbotech, Bj. 2014, Leistung 120 Nm<sup>3</sup>/h, Reinheit 99,5%. Best. aus 40?-Container, VE-Wassererzeugung, Gleichrichtern für Elektrolyse, Steuerungstechnik, Gasaufbereitungssystem, Luftkühler (dachmontiert). Mit 2 Stacks, Fabr. Ginger, je 81 Zellen, nur für Testbetrieb im Einsatz. Neupreis € 1.7 Mio.

-----  
Electrolysis plant for the production of hydrogen, (research plant for testing electrolysis cells / stacks). The system includes a 40-feet high cube container including a system for VE water generation, the rectifiers for the electrolysis, the controlsystem and the gas treatment systems, which also includes an air cooler, mounted on the roof. Unit will be delivered with 2 Stacks, Manufacturer Ginger, 81 cells which are onla used for a testrun. The basic components are in very good condition. New price approx. € 1.7 million
